# Great News for Military Spouses

## **USDOL/ETA Training and Employment Guidance Letter Workforce Investment Act (WIA) policy revision for Military Spouse services**

### **ORIGINAL POLICY:**

As outlined in **TEGL No. 22-04, Change 1**, issued September 28, 2007, a military spouse who leaves his/her job to follow his/her spouse to a new duty assignment can be served with WIA Dislocated Worker formula grant funds in certain circumstances. Spouses in these circumstances must still be determined to be “unlikely to return to a previous industry or occupation” in order to qualify as a dislocated worker

### **POLICY CLARIFICATION:**

Military Spouses impacted by a service member’s duty reassignment or discharge **can also be considered to meet** the “unlikely to return to a previous industry or occupation” criterion of WIA Section 101 (9) (A) (iii) and could thus be served as a dislocated workers under the WIA Section 101 (9).
